PROFESSIONAL SUMMARY

Operations and Data Analytics professional with 2+ years of experience supporting insurance, financial services and fast-paced data operations. Hands-on experience using SQL, Advanced Excel and Power BI to analyze operational data, monitor KPIs, identify trends and anomalies, investigate issues and translate findings into actionable recommendations. Experienced in process improvement, reporting automation, data quality, issue resolution and cross-functional stakeholder collaboration.

CORE SKILLS

Operations & Insurance: Insurance Operations Analytics, Product/Operational Support, Process Improvement, Operational KPI Monitoring, Issue Resolution, Root Cause Analysis, Process Documentation

Analytics & Reporting: SQL (Joins, CTEs, Window Functions), Advanced Excel, Pivot Tables, VBA, Python, Pandas, EDA, Daily/Weekly/Monthly Reporting

Business Intelligence: Power BI, DAX, Power Query, Tableau, KPI Dashboards, MIS Reporting, Trend Analysis, Anomaly Detection, Data Visualization

Collaboration & Quality: Cross-functional Collaboration, Stakeholder Requirements, Data Validation, Problem Solving, Actionable Insights, Agile

Data Engineering: Azure Data Factory, ETL, Data Modeling, Data Cleaning, Reporting Automation, PySpark (Basic)

PROFESSIONAL EXPERIENCE

Innodata | Remote | Jan 2026 - Apr 2026

Analyst - Data & AI

- Supported high-volume data operations by analyzing structured and unstructured datasets using SQL and Python and translating operational trends and exceptions into stakeholder-ready insights.
- Performed QA, consistency and validation checks across 500K+ records, improving data accuracy by 30% and supporting reliable downstream operations and reporting.
- Developed 5+ Power BI KPI dashboards and recurring reports to monitor performance, exceptions and operational quality, reducing reporting turnaround time by 25%.
- Automated repetitive data preparation and reporting workflows using Python, VBA and Advanced Excel, reducing manual effort by 40% and improving process efficiency.
- Collaborated with global stakeholders to clarify requirements, investigate data issues, document findings and support timely resolution.

Accenture | Kolkata, West Bengal | Nov 2023 - Aug 2025

Associate Software Engineer (Data Analytics & Business Reporting)

- Supported insurance, financial-services and enterprise operations across 10+ engagements, using SQL and Advanced Excel to extract, analyze and validate operational, portfolio and business data.
- Created and maintained Power BI dashboards and daily/weekly/monthly reporting views to monitor operational KPIs, portfolio performance, revenue trends and business exceptions.
- Conducted trend, anomaly and root-cause analysis to identify data issues, operational bottlenecks and reporting discrepancies; translated findings into actionable recommendations for stakeholders.
- Supported process improvement by identifying repetitive and error-prone reporting activities and automating SQL/Python workflows, reducing manual effort by 40% and improving reporting efficiency.
- Worked cross-functionally with business and technical teams to gather requirements, investigate issues, assess business impact, document resolutions and support operational alignment.

ANALYTICS PROJECTS

Bank Loan Portfolio & Financial Analysis | SQL, Tableau, Excel | [GitHub](#)

- Analyzed applications, funding, repayments and customer segments; built dashboards to monitor portfolio KPIs, risk patterns and business trends.

Customer Behavior & E-Commerce Analytics | SQL, Python, Power BI | [GitHub](#)

- Analyzed transactional and cohort data to identify retention trends, customer segments and revenue patterns and convert findings into business recommendations.

EDUCATION

B.Tech - Electrical Engineering, Techno International New Town, Kolkata | Aug 2019 - Jul 2023 | CGPA: 8.74/10
